Work History

Aug 2013 - Jun 2015

Rooms Controller & Guest Service Representative

JW Marriott Camelback Inn Resort & Spa

- Required an attention to detail which I incorporate into projects as a developer
- A High stress work environment where I showed I could complete tasks under pressure
- Time management was learned in order to complete my tasks for deadlines
- Leadership of other team members taught me how to manage and work with others
- A positive attitude and open to feedback was pinnacle to my success on the job

Education

Jun 2015 - Sep 2015

Intensive software training bootcamp

Coder Camps

Successfully directed a team to develop a full stack social media web application. The project had a 3 week deadline and used the following Technologies:

- JavaScript
- AngularJS
- MongoDB
- Express & Node.js
